

“Leadership in the fast lane” TEDxBusiness event speeds Continental toward a better future

In a show of commitment to quality, to their customers and to one another, Continental sought to give back to employees for their amazing resilience and accomplishments. Hosted by the Sibiu office in Romania, the TEDxBusiness event allowed Continental employees to gather in celebration of ideas worth spreading. This inaugural event is a key component of building a future-ready environment at Continental. Speakers across every corner of Romania’s staff and the Sibiu communities came with a diversity of expertise to discuss powerful ideas.
